Enterprise Risk Management
SACoP

AFERM Association for Federal
Enterprise Risk Management
STATE & LOCAL
OUTREACH COMMITTEE

Get Involved in Government Risk Awareness Week

Government Risk Awareness Week (*Gov-Risk Awareness Week*) will be the week of November 27-December 1, 2023. Federal Risk Awareness Week began in 2021, **to raise awareness and build support for risk management** in federal agencies. This year, with the addition of the State and Local ERM Committee and AFERM Book Club, **we are expanding to all levels of government**. An annual *Gov-Risk Awareness Week* showcases the **value of creating a risk aware culture** and amplifies the importance of identifying and communicating the connection between risks and achievement of strategic objectives.

Gov-Risk Awareness Week is a collaboration of government ERM Communities of Practice (CoPs) to **share opportunities to engage with and learn from each other**. During *Gov-Risk Awareness Week*, government ERM professionals organize activities (trainings, video messages, townhalls, podcasts, blog posts, etc.) to promote a risk aware culture within their organizations and governmentwide. If interested, **please join us to become involved** in the following ERM Communities: Federal Agency ERM CoP, [Cyber-ERM Community of Interest \(Cyber ERM CoI\)](#), [Data Analytics CoP \(DACoP\)](#), [Small Agency CoP \(SACoP\)](#), and [State and Local Outreach Committee](#). **Together we can make a difference!** For more information please visit: www.resources.aferm.org.
